Experience

Square

Principal Product Designer — 2026–Present

I'm currently focused on the Square Growth experience, evolving both the storytelling and the product pathways that drive customer acquisition. I partner with Product, Marketing, Engineering, and Brand teams to translate strategy into tangible product experiences.

Slack

Lead/Principal Product Designer — 2025–2026

I led product design for Slack's Platform team, empowering developers and non-developers to use Slack, integrate workflows, and unlock new ways of working. I helped define product direction and set design standards while carrying features from vision through execution and launch.

GitHub

Staff Product Designer — 2022–2025

I led design for GitHub Issues and GitHub Projects. I worked with research to identify problem spaces, product to define and scope work, and engineering to ship holistic experiences. I was also a founding member of our Accessibility Design Champions program focused on raising the bar of inclusive design practices across all products, and ensuring accessibility is embedded in our design process.

Mailchimp + Intuit

Staff Product Designer — 2018–2022

At Mailchimp I worked to identify complex problems and develop design approaches that translated to elegant user experiences. I partnered with leadership and user research to inform deliverables, shape future roadmaps, evolve the internal design system, and cultivate transparency.

ShootProof

Product Designer, Manager — 2015–2018

While at ShootProof I led creative efforts related to design systems, digital interfaces and assets affiliated with the ShootProof web and native applications. I conducted 1:1 and annual reviews, was responsible for task deputation, requirements gathering, and the research, scoping, and execution of projects.

Bluetube

UX Designer — 2013–2015

While at Bluetube I was responsible for conceptualizing and designing digital experiences, and strategizing and scoping projects with internal and external stakeholders. My day to day tasks ranged from visual design and usability testing, to storytelling and pitching work.

Independent Work

Proportional Design

Founder — 2012–Present

I operate a small-fry studio based in Atlanta, GA building furniture and other functional objects. I design and fabricate custom pieces ranging from benches, chairs, and desks, working from concept through construction to deliver handcrafted furniture that balances form and function.
